

# SHRIRAM M

Full Stack Developer

Namakkal, Tamil Nadu | [shriram.coder@gmail.com](mailto:shriram.coder@gmail.com) | +91 9600835006  
[GitHub](#) | [Portfolio](#) | [LinkedIn](#)

## PROFILE

Full Stack Developer with production experience shipping SaaS applications end-to-end React/Next.js frontends, Spring Boot/Node.js backends, PostgreSQL datastores, and AI-powered features using GPT-4o and RAG pipelines. Shipped Feedback Wall, a live multi-tenant SaaS platform with real users. B.E. Computer Science, 2026.

## EDUCATION

Selvam College of Technology, Namakkal 2022 – May 2026  
*Bachelor of Engineering in Computer Science and Engineering* CGPA: 78%

## SKILLS

|                 |                                                                                                                            |
|-----------------|----------------------------------------------------------------------------------------------------------------------------|
| Frontend:       | React.js, Next.js 14, JavaScript (ES6+), HTML5, CSS3, Responsive Design                                                    |
| Backend:        | Java 17, Spring Boot 3.x, Spring AI, Node.js, Python, REST APIs                                                            |
| AI / ML:        | RAG, MCP (Model Context Protocol), OpenAI GPT-4o, pgvector, LLM API integration, Prompt Engineering, n8n Agentic Workflows |
| Databases:      | PostgreSQL, MySQL, Supabase (BaaS)                                                                                         |
| Cloud & DevOps: | AWS, Docker, Kubernetes, Vercel, CI/CD Pipelines                                                                           |

## PROFESSIONAL EXPERIENCE

Servimos Technologies Pvt Ltd (WeServeTech LLC) — SDE Intern Feb 2026 – Mar 2026 | Chennai, TN

- Engineered AI Report Generator using Java 17 and Spring Boot 3.x that automated weekly compliance reports, reducing manual report preparation from ~4 hours to <10 minutes per cycle.
- Implemented **RAG context injection** via **pgvector** + **PostgreSQL** for semantic document retrieval; applied **MCP (SSE transport, JSON-RPC tool calling)** to automate recurring reporting pipelines.
- Shipped production-ready AI backend module across 3 Agile sprints with full ownership — from schema design through deployment reviewed and approved by senior engineers.

Edunet Foundation — Technology Development Intern Jul 2025

- Resolved 15+ bugs across frontend and backend modules during SDLC testing phases, reducing post-release defect rate by 25%.

Authored technical documentation and participated in sprint planning, standups, and retrospectives.

## PROJECTS

FeedbackWall — SaaS Feedback Management Platform 2026 | [Live](#)  
Next.js · Supabase · Vercel

- Solo-built and launched a **Canny alternative** public feedback boards, feature voting, changelog, email alerts, and embeddable JS widget onboarded 10+ beta users within first month of launch
- Architected **multi-tenant Supabase backend** with row-level security policies isolating tenant data; deployed on Vercel with automated CI/CD pipeline built solo from auth to production in 6 weeks

Quero — AI-Powered Database Assistant 2026 | [Live](#)  
Java 17 · Spring Boot 3.2 · PostgreSQL · Docker · Kubernetes

- Engineered natural-language-to-SQL engine using **Spring Boot 3.x** and **GPT-4o API** that translates English questions into optimized MySQL queries with **92%+ accuracy on test dataset of 200+ query patterns**
- Built custom read-only **SQL validation engine** that sanitizes all generated queries, preventing injection attacks and enforcing SELECT-only execution zero write operations permitted.

Personal AI Assistant — n8n Agentic Workflow 2026 | [GitHub](#)  
n8n · OpenAI GPT-4o · Gmail API · Telegram Bot · OAuth2

- Built autonomous morning-briefing agent that categorizes 50+ daily emails by priority, extracts action items, and delivers structured Telegram summary via scheduled corn triggers reducing email triage time from 30 min to <2 min.

## CERTIFICATIONS

- Introduction to Model Context Protocol — **Anthropic**
- Cloud Computing — **NPTEL (IIT- certified)**

## ACHIEVEMENTS

- Solo-founded **Feedback Wall** — live SaaS with real beta users
- Ranked **1st** in weekly Code Chef college leaderboard
- GeeksforGeeks Campus Rank **3** — 54 problems solved
